

**ATTENTION MEADOWCREST HOMEOWNERS**  
**!! VERY IMPORTANT !!**

In order to eliminate the old Bright House billing system for bulk rate contract users, Spectrum has offered Meadowcrest a new and very attractive proposal. Starting January 1, 2019 Spectrum is willing to bundle 100 mps internet service under our bulk rate contract for just under \$12 per month per residence. If you currently have your internet service through Bright House/Spectrum you are paying about \$60 per month. **This offer means you will save approximately \$48 per month or \$570 per year on internet service.** Those who have other internet service providers will save also, but we can't estimate how much that will be.

If our snowbirds currently have their internet service suspended when they are not in Meadowcrest, under this offer you would not be able to suspend your service. However, for every month you are away, we assume you currently save \$60. Therefore, your service would have to be suspended when you are away for 9-10 months for you to save the \$570 you will save under this new deal.

If adopted, starting January 1, 2019, the monthly increase of \$12 for internet service will be paid in your monthly assessment to your village. The monthly amount you currently pay to Bright House/Spectrum for internet services will be removed from your bill.

The village presidents and/or a representative from their board met and believe this is an extremely good offer. However, they also believe it is up to you, the owners to decide. Therefore, please **answer the question below, print your name and street address and return this form to the Meadowcrest office by July 31<sup>st</sup>.** This form is to be filled out by owners only, not renters. For those who will be mailing their response, the address for the Meadowcrest office is 6222 W. Corporate Oaks Drive, Crystal River, FL 34429.

Do you prefer Meadowcrest accept this proposal from Spectrum to add internet service to the bulk rate contract?
